

Volunteering with the Friends of South Pass & South Pass City State Historic Site

Historic Site Buildings & Grounds Maintenance

What would I do?

1. Conduct light construction maintaining historic & modern buildings.
2. Repair & maintenance of historic site fences.
3. Conduct daily Janitorial work throughout the historic site.
4. Maintain grounds including mowing, trimming & limited irrigation.

What skills do I need?

1. Ability to run small equipment.
2. South Pass City Staff will train you!

What is the Schedule?

1. The schedule is set with the head of maintenance at the historic site.

What impact will I have?

The greatest asset that the historic site has is the original buildings in their original locations. These structures date from as early as 1868 & run up through the mid 1940s. Each one takes a special hand to maintain. Maintenance have the most immediately visible impact on the site. That new coat of paint really brings out the history here at SPC & our Visitors really enjoy it!

How do I sign up?

1. Use the following contact info!
